KNOWLEDGE

Series A: New Frontiers in Science,
Space, Light, and Matter.

Sept. 15 – Oct. 13

Series B: Great Cities of the World

Oct. 13 – Nov. 24

Welcome

Later Life Learning offers the mature audience a public forum in which prominent speakers and experts discuss a variety of interesting topics, such as politics, economics, labour relations, new technologies, health and life issues, and the arts.

Up to 300 hundred people enjoy the lecture on Friday mornings.

The lecture is 1 hour and starts at 10:00 a.m. There is a short coffee break followed by a 45 minute question period. The lecture ends at 12:00 pm.

Without your continuing support this lecture series would not be possible. 31 years in the community and still going strong.

Sincerely

Natalie Holland

Coordinator

Great Cities of the World

From the 19th Century onwards, urbanisation has become one of the hallmarks of modern civilization. Tens of millions of people have left the countryside to migrate to towns and cities. In the process, towns have become cities and great cities have become megalopolises. Many have fascinating histories. Most are major centres of political and cultural activity. Many are significant generators of economic progress and technological innovation. Some combine all of these characteristics. This series of lectures will examine the historical evolution of five major cities, as well as the factors that give rise to cities.
